BIBLIOGRAPHY OF INFECTIOUS DISEASES  
FROM SOVIET PERIODICAL, JANUARY 1953

B. A. Ivanov

Comment: The following list of titles is taken from a bibliography in Zhurnal Mikrobiologii, Epidemiologii i Immunobiologii for January 1953. The bibliography covers the second and third quarters of 1952 but also contains titles from collections published in 1951. Only titles from publications, or certain issues thereof, which, as far as could be determined, are not available in the US, are included herein.

UNPUBLISHED PAPERS [15 abstracts]

T. A. Starkova (Chair of Microbiology of the 1st Leningrad Medical Institute imeni I. P. Pavlov) -- Use of Liquid Media for the Isolation of Koch Bacillus Cultures From Pleural Exudates

A. A. Doroshkevich (Chair of Microbiology of the Chernovtsy Medical Institute) -- Microflora in the Middle Ear and in the Blood of Children Suffering From Dysentery and Its Complications.

M. V. Zemskov and A. S. Sokol'skaya (Voronezh Institute of Epidemiology and Microbiology and Chair of Microbiology of the Voronezh Medical Institute) -- The Possibilities and Conditions of Infection With Leptospirosis From Sick Animals.

G. M. Permyakov (Molotov Institute of Epidemiology and Microbiology) -- The Question of the Etiology of So-Called Toxicoseptic Diseases of the Newborn.

50X1-HUM

L. A. Makhmudbekov (Clinic of Infectious Diseases of the Azerbaiydzhan Medical Institute) -- The Sterile Punctate in Bacteriological and Serological Diagnosis of Typhoid-paratyphoid Diseases.

B. I. Gandel'sman, Z. A. Yelistratova, and F. Ya. Kavenoki (Central Scientific Research Disinfection Institute) -- The Effect of Desiccation on the Period of Survival of Hiss-Flexner Dysentery Bacilli.

O. U. Makeyeva and M. N. Shchukina (VNIKhFI, All-Union Scientific Research Chemicopharmaceutical Institute imeni S. Ordzhonikidze) -- The Antituberculosis Activities of an Amino Derivative and a Hydroxy Derivative of Diphenyltrichlorethane.

I. S. Rubinshtein, D. Ye. Zubitsker, Ye. M. Shchedrinskaya, and M. A. Frid (Belorussian Institute of Epidemiology and Microbiology) -- Cases of Colibacillosis in Newborn Children.

V. G. Romanenko (Rostov Oblast Veterinary Experimental Station) -- Study of the Immunological Properties of Some Strains of Leptospirae, the Causative Agents of Water Fever in Humans and Animals.

## PUBLICATIONS

General Problems /4 articles/Microbiology and Immunology /9 articles/

L. L. Aver'yanova and D. F. Pletsityy -- The Significance of the Time Factor in the Development of Immunity. Trudy Akademii Meditsinskikh Nauk SSR (Works of the Academy of Medical Sciences USSR), Moscow, Vol 19, 1952, pp 247-254.

F. S. Teplitskaya, K. M. Veitsman, and N. A. Frishman -- Experiments With Leucocyte Changes and Reaction of Erythrocyte Sedimentation in Rabbits Immunized with Pentavaccine. Trudy Instituta Epidemiologii i Mikrobiologii Ministerstva Zdravookhraneniya Kirgizskoy SSR (Works of the Institute of Epidemiology and Microbiology of the Ministry of Public Health Kirgiz SSR) Frunze, Vol 1, 1951, pp 21-23.

F. S. Teplitskaya, N. A. Frishman, and K. M. Veitsman -- Experiments on the Antigenic and Immunogenic Properties of "Associated" Anavaccineformalin Vaccine, and Heated Pentavaccine. Trudy Instituta Epidemiologii i Mikrobiologii Ministerstva Zdravookhraneniya Kirgizskoy SSR, Frunze, Vol 1, 1951, pp 16-20.
